# COMPANY PROFILE

We are a Mount Isa and Cloncurry based company in North West QLD that strives for service excellence in Electrical, Refrigeration, Solar and Signage industries. With a large flexible workforce, we can provide a single solution for our customers from a Major project to a house or business refurbishment. We have successfully completed projects and service contracts for clients like Queensland Health, Hutchinson Builders, Building and Asset services, Mount Isa Mines, MMG and Leighton Contractors. Our Cairns branch opened in 2019 also specialising in all aspects of Electrical work.

Clancy Corporation is focused on the future and has a strong drive to promote sustainability across all aspects of our business both internally and through our clients. We see Workplace Health and Safety, Quality and Sustainability as the keys to our business success. We are committed to supporting our community and strive to be good corporate citizens. Our aim is to offer value for all clients.

# OUR PEOPLE

Our people are our greatest asset and as the face of our business they are an integral part of our success. We believe in training our staff to be leaders in their field, not only upskilling our existing staff but training apprentices to become successful, skilled and professional tradespeople.

## OUR APPROACH

We strive to offer complete solutions across all aspects of our company for our clients. A close relationship with our supply chain provides a greater level of product support reducing down time. We have a strong focus on energy efficiency and renewable energy, using this focus to deliver real benefits to our clients. We see client service, value for money, quality and safety as the key to delivering for our clients.
