- ⚡ Check out the changes to the Riversleigh Fossil Centre at Outback at Isa!
- ⚡ Story Time at the Library every Wednesday for the kids
- ⚡ July 11th - Splashez Aquatic Centre Reopens

Who or What is Clancy Corp?

Fun fact! Did you know Clancy Corporation originally started out as Dave Clancy Electrical?

Dave and Lisa started the business in their own home, with Mick being one of the first employees. Dave had a dream to start his own business, but it was about much more than making money. He had a passion to empower others through the service his business could provide.

The company hasn't always been the size or capacity you see today, it has taken many years of 7-day, 100+ hour weeks to get to the where Clancy Corp is today. Whether it was a big or small job, Clancy's were determined to produce the service the customer required. If this meant researching and learning new skills along the way, this is what they did. By 2009 Dave and Lisa moved the business from their home office to Traders Way and this is where you'll find them today. That same year saw Clancy Corp expand into the Signage and Solar. Then in 2012, expanded again when they acquired the now extensive Refrigeration and Air Conditioning department.

Dave describes himself as a "simple sparky with high standards" and this is the motto everyone at Clancy's has adapted. No matter how much the business grows, Clancy Corp is determined to provide a high-quality service that meets the customer's expectations and hold onto their can-do attitude of empowering the community in the work they do.

Meet Our Directors

DAVE CLANCY

How long have you been with Clancy's?

Started as a sole trader in 1994 based in Cairns and relocated to Mount Isa in 1998, keeping the company dormant for 8 years while working for O'donnell Griffin. Until 2006, when I started up Dave Clancy Electrical in Mount Isa. So, 14 years.

What's your favourite music genre?

Rock - U2 & AC DC

Pineapple on pizza? Yay or nay?

Good stuff!

Do you have a secret talent? If so, what is it?

Master Hoarder

How would you describe your job to a bunch of 5-year olds?

When the wifi stops working give us a call and we have it working in no time

What is your favourite Hobby?

Fishing, timber milling and building.

LISA CLANCY

How long have you been with Clancy's?

14 years

What's your favourite music genre?

This is a hard question I love a variety of music, but rock is my favourite.

Pineapple on pizza? Yay or nay?

YAY

Do you have a secret talent? If so, what is it?

If I tell you it won't be a secret anymore! HAHA

How would you describe your job to a bunch of 5-year olds?

I look after & work in a busy office with lots of ladies and men who book in jobs so we can go fix people's lights, fans, air-conditioning & make really cool stickers and pictures.

What is your favourite Hobby?

Entertaining at home & spending time with our family and friends. Camping and Fishing

MICK SCOTNEY

How long have you been with Clancy's?

14 years

What's your favourite music genre?

Anything with a beat

Pineapple on pizza? Yay or nay?

Definitely! The more toppings the better

Do you have a secret talent? If so, what is it?

I'm pretty good at fire twirling

How would you describe your job to a bunch of 5-year old's?

I help people do well at their jobs. I help others build things for the future, like schools and hospitals and make all the really cool computers and technology work. I help them make the classrooms cool and make awesome signs and stickers.

What is your favourite Hobby?

I love to go camping out bush and cook in the camp ovens by the fire

*"Success is not final;
failure is not fatal: it is
the courage to continue
that counts."*

– Winston Churchill

The Riversleigh Fossil Centre Upgrade

This month we finished the renovations at the Riversleigh Fossil Centre. The work was extensive and required all our departments.

Our builders worked on demolition and then the redevelopment of various areas including: new walls, ceiling and a fresh lick of paint. Our refrigeration specialists were kept busy with installing a brand-new ducted cooling system in the newly developed areas, along with stand alone air conditioners in the modified zones.

Kate, our signage manager, and her team worked in conjunction with Focus Productions to install new graphics and artwork displays. While the electrical team carried out a full upgrade of the existing switchboard, installed a new emergency lighting system, along with the communications and data system advancement. You'll also not miss an inch of the new exhibitions thanks to the LED display lighting our team installed.

Finally, make sure you pop into Outback at Isa to see the remediation work done on the pond and water feature display. Guided tours are available each day from 10am and are definitely worth a look these school holidays.

*DID YOU KNOW
WE NOW INSTALL
AND MAINTAIN
FIRE SYSTEMS!*
